UI Plan

- What four elements on the website will be interactive?
  - Hamburger menu
  - Sub-navigation
  - "read more" button
  - API to find a local charging station for your electric vehicle
- How will a user interact with these elements?
  - click to open
- What will the result of the event be?
  - The menu and sub-navigation buttons will drop down, the ad will take them to a partner charity, the API will display top 10 charging locations.
- What API will you be using?
  - https://api.carbonintensity.org.uk/intensity/date (current carbon intensity in the UK)
